

# The AquaLink® RS Does Everything So You Can Relax

Get more out of  
your pool & spa  
with a Jandy  
AquaLink RS  
Control System

## AQUALINK RS CONTROLS — THE INTELLIGENT CHOICE

The Jandy AquaLink RS Control System puts control of your whole backyard paradise at your fingertips. Adjust spa temperature, turn on water features, monitor chlorine generation and rest assured that the cleaner is on without ever stepping outside. There is an AquaLink RS for every application — pools, spas, pool and spa combinations, custom pools and spas with separate equipment — controlling up to thirty two different pieces of equipment or features.

## CONTROL YOUR POOL AND SPA FROM WHEREVER YOU ARE

Remote automation gives you the power to manage all pool and spa equipment, backyard lighting and more from inside your home or outside in your yard. With a variety of features, from multiple control panels to spa side remotes, from your telephone to even your PC, you can control your pool, spa and backyard amenities from anywhere! Imagine adjusting water temperature, dimming lights or turning on a waterfall while sitting in your spa with friends. Plus, you can phone your system from anywhere and activate your heater so the water is the ideal temperature when you get home. The AquaLink RS Control System makes it all possible.

## BUILT-IN EQUIPMENT PROTECTION

The AquaLink RS safeguards all your pool and spa equipment. With built-in features like automatic heater cool-down, self-monitoring freeze protection, and pool cleaner safety delay, the AquaLink RS virtually eliminates any concerns about equipment protection. Plus, all AquaLink RS control systems are backed by some of the strongest and most inclusive warranties in the industry. It's the best investment you can make for your pool and spa.

AquaLink® RS  
Control  
Systems

Performance  
Reliability  
Technology

Start by selecting the AquaLink RS Control System that is right for you. Jandy® controls offer more features, styles and peace of mind than other control systems. AquaLink RS monitors your water temperature, activates your water features, sets temperatures and protects your equipment so you can concentrate on relaxing! We offer a control system for virtually every pool and spa configuration and have a number of unique features designed to ensure your pool and spa experience is a pleasure.

### Jandy Two Way Intelligent Communication

The AquaLink RS takes advantage of exclusive two-way communication with other Jandy products, offering unsurpassed feedback and control. Monitor water purification and boost chlorine production for heavy use with AquaPure®. Choose a favorite color of your pool and spa light with WaterColors. Intelligent control comes from a system that knows how to communicate.

### Wireless Control

Control your pool and spa from wherever you are with the AquaLink RS Pool Digital Assistant (PDA), Wireless AquaLink One Touch™ or AquaPalm™ remote. The Wireless OneTouch is a full featured, portable control system with all the bells and whistles. The PDA and AquaPalm bring the power of AquaLink into the pool and spa, with their waterproof and slip free housing. This rugged design can be used anywhere in your home or backyard.

### Jandy's Famous OneTouch Feature

Activate multiple features with a touch on ONE button. Program your OneTouch system to set your spa temperature, switch water flow from pool to spa, turn on the spa light and start the spa jets, all with one button. With OneTouch settings like "Night Party" and "Clean All" you can imagine the power of this unique Jandy feature.

## AquaLink® RS PDA

### Wireless Remote

The Jandy Pool Digital Assistant (PDA) offers the power of a complete control system in a wireless, handheld remote. With the Jandy PDA, virtually every pool and spa function can be performed from where you are.

#### PDA Features

- Compact, attractive, ergonomic, wireless remote control.
- Large, clear display of all functions with a user friendly "Windows" style" interface.
- Backlit display and buttons for evening use.
- Supports up to eight auxiliary functions.
- Waterproof and it floats!
- Easy to hold even when wet.
- Replaceable AA batteries.

Ergonomic, rugged and waterproof, the AquaLink PDA is as comfortable in your hand as it is in your pool!

## AquaLink® RS OneTouch

### Indoor Control Panel

Designed to blend with any room decor, the OneTouch is as small as a double light switch and can be flush or surface mounted. Discover the benefits of the famous Jandy OneTouch feature; With OneTouch you can "set it and forget it" or program your backyard to come alive.

#### OneTouch Features

- In-home control - no more running outside to check if you turned off the spa.
- Activate multiple features with the touch of one button.
- Personalized software and labeling of all functions.
- Exclusive interface with WaterColors Pool and Spa Lights and AquaPure® Chlorine Generator.
- Supports up to 32 auxiliary functions.
- Large, clear screen with Windows" style interface.

The AquaLink RS One Touch™ is available in an indoor wireless model for the ultimate pool & spa control.

# Complete Control With Peace of Mind

The real measure of a control system is not how large and complicated it is, but how compact and easy to use. Spend your time enjoying your pool and spa, not dealing with the responsibilities of maintaining it. The AquaLink RS does that work for you. With built-in features like automatic heater cool-down, self-monitoring freeze protection, and pool cleaner safety delay, the AquaLink RS virtually eliminates any concerns about equipment operation.

Plus, all AquaLink RS control systems are backed by some of the strongest and most inclusive warranties in the industry. So relax and rest assured that your investment is protected and everything is set just right. The AquaLink RS has it all under control!

## Standard Control Features

**AUTOMATE FILTRATION**  
Keep your pool and spa sparkling clean and ready to use. Automatic and efficient filtration cycles allow you more time to relax.

**POOL & SPA CONTROL**  
Switch from pool to spa with a touch of a button or automatically at a set time. Pool and spa features at your command.

**SPILLOVER & WATER FEATURE CONTROL**  
Set your water features to perform at your command. With one touch, your backyard will come alive with relaxing sounds.

**POOL & SPA LIGHTING**  
Create a mood or just brighten the backyard for an evening swim. Pool and spa light control is effortless and fully customizable from within your home.

**LANDSCAPE LIGHTING**  
Brighten beyond the pool. Dim pathway lights, thresholds, safety lights and more at different times, at dusk, or all at once.

**SOLAR**  
Control your solar heating with the AquaLink RS system and realize the cost savings that comes with alternative energy.

**BUILT IN SAFETY FEATURES**  
Automatic freeze protection, heater cool down and system lockout modes help keep valuable equipment running smoothly.

## Optional Control Features

**SPA SIDE REMOTES**  
Stay in the spa and adjust spa temperature or turn on lights. Jandy's spa side controls fully integrate with any AquaLink RS.
