# MASTERTEMP®

## HIGH PERFORMANCE HEATER

Save money and energy with Australia's favourite pool heater. The MasterTemp® High Performance Heater has earned a reputation for being dependable, easy-to-use and efficient. And now with the addition of smart connectivity and energy-saving automation, you can ensure your pool is ready whenever you are.

### FAST, EFFICIENT, COMPACT, QUIET, SAFE & ECO-FRIENDLY:

- › Very compact design for such a high performance heater, allows for smaller overall equipment pads that won't intrude on your poolscape.
- › A fully pre-mixed system with a highly efficient air and gas mixture lets the MasterTemp® heater heat up fast. No long waits before enjoying your pool or spa.
- › Cupronickel Heat Exchanger. Heavy duty corrosion-resistant heat exchanger for salt water pools.
- › Compare energy efficiency ratings and you'll find MasterTemp® heaters at the top of the list. Comfort and economy can go together.
- › With a hot surface ignition (no pilot light) and pushbutton, digital controls, the MasterTemp® heater is as easy to operate as your home heating system. Plus, user-friendly indicator lights make system operation and monitoring a snap.
- › The easy-to-view, rotating digital display places controls front and center, no matter how the MasterTemp® heater is positioned on your equipment pad.
- › MasterTemp® heaters are engineered for super-quiet operation and won't intrude on your poolside leisure time.
- › A tough, rustproof composite exterior handles the heat and weathers the elements.
- › Eco-friendly, the MasterTemp® heater is certified for low NO<sub>x</sub> emissions and outperforms industry standards.
- › Safe operation through a series of features, including: a water pressure switch that senses the pump is running to prevent overheating, high limit switches assure the heater turns off if water temperature exceeds factory-set limits, manual gas shut-off when service is required, stack flue sensor also guards against overheating.
- › Approved for installation on combustible surfaces.

## MASTERTEMP® 125

*Don't be left out in the cold with heaters that don't measure up to today's longer list of must-have features. Insist on MasterTemp® heaters and you're insisting on better performance and lifetime value.*

# MASTERTEMP®

Rotating digital display means more installation options and easier access to view operating information

Easy to install or retrofit in even the tightest space – models from 125MJ to 400MJ – all measure 21"L x 21"W x 28"H

Rustproof, tough composite exterior for long life

*Available in natural gas and propane (LPG) models*

## SPA SIZING\*

| Model | Minutes for 15°C Temperature Rise |      |      |      |      |      |       |
|-------|-----------------------------------|------|------|------|------|------|-------|
|       | Spa Volume (Litres)               |      |      |      |      |      |       |
|       | 500                               | 1000 | 2000 | 3000 | 4000 | 5000 | 10000 |
| 125   | 18                                | 37   | 73   | 110  |      |      |       |
| 200   | 11                                | 23   | 46   | 69   | 91   | 114  |       |
| 300   | 8                                 | 15   | 30   | 46   | 61   | 76   |       |
| 400   | 6                                 | 11   | 23   | 34   | 46   | 57   | 114   |

Note: The chart is based on a theoretical calculation discounting losses and only based on heat required to raise temperature in minutes.

## POOL SIZING\*

| Pool Size | Recommended Heater Size By Location and Pool Size |          |          |        |           |       |        |
|-----------|---|----------|----------|--------|-----------|-------|--------|
|           | Location  |          |          |        |           |       |        |
|           | Adelaide  | Brisbane | Canberra | Hobart | Melbourne | Perth | Sydney |
| 25000     | 125   | 125      | 200      | 200    | 200       | 125   | 125    |
| 50000     | 300   | 200      | 300      | 400    | 300       | 200   | 300    |
| 75000     | 400   | 300      | 400      | 400    | 400       | 300   | 400    |
| 100000    | 400   | 400      | 400      | 400    | 400       | 400   | 400    |

Selection is based on average pool depth of 1.2m, in-ground pool, normal wind exposure, no cover use, light pool colour, no-shade, water temperature of 28C, Spring-Autumn use and 8 hours of daily running time. Consult with your pool equipment supplier for correct heater selection for your pool.

## AN ECO SELECT® BRAND PRODUCT

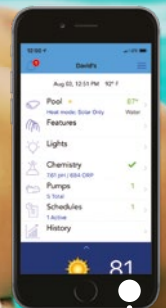

As the global leader in pool and spa equipment manufacturing, we strive to provide greener choices for our customers. We hope you'll join us in embracing more eco-friendly poolscapes by choosing **Eco Select** brand products for your swimming pool.
