

# PURE MINERALS™

The ultimate magnesium rich mineral blend  
for enhanced water and bather comfort.

# ULTRA BLEND™

Take the guesswork out of mineral pools  
with Pure Minerals Ultra Blend™

# PURE MINERALS™ ULTRA BLEND™

Pure Minerals Ultra Blend™ is a mineral pool blend enhanced with magnesium and borates for the ultimate bather experience and water conditioning.

Converting to Ultra Blend™ is easy for any existing pool system and is compatible with all chlorinator, pump and filtration systems.

ULTRA BLEND™

## Magnesium Rich

Experience the therapeutic benefits of magnesium. Muscular tension and skin conditions can be soothed with each swim.

## Added Borates

Borates create exceptionally soft and silky water, inhibit algae, act as a pH buffer, and improve sanitisation.

## One Step

Ultra Blend™ is an easy to use, one-step mineral blend that does not require additional mixing with salt.

## High Clarity

Magnesium acts as a natural flocculent, removing debris and impurities from the water, creating a crystal-clear pool.

## The perfect mineral blend, everytime.

The table below can be used for Pure Minerals Ultra Blend maintenance dosages in systems with a target salinity of 4,000ppm. See product packaging for further dosage instructions.

PURE MINERALS ULTRA BLEND™ DOSAGE - Add in kg										
Current Salinity (ppm)	10,000 L	20,000 L	30,000L	40,000 L	50,000 L	60,000 L	70,000 L	80,000 L	90,000 L	100,000 L
0	50	99	149	199	248	298	348	398	447	497
